National Pupil Database

We are required to provide information about pupils to the Department for Education (a government department) as part of data collections such as the school census. Some of this information is then stored in the National Pupil Database, which is managed by the Department for Education and provides evidence on how schools are performing. This, in turn, supports research.

The database is held electronically so it can easily be turned into statistics. The information it holds is collected securely from schools, local authorities, exam boards and others.

The Department for Education may share information from the database with other organisations which promote children's education or wellbeing in England. These organisations must agree to strict terms and conditions about how they will use your data.

You can find more information about this on the Department for Education's webpage on how it collects and shares research data. You can also contact the Department for Education if you have any questions about the database.

Youth support services

Once students reaches the age of 13, we are legally required to pass on certain information about them to the local authority and youth support services as it has legal responsibilities regarding the education or training of 13-19 year-olds under section 507B of the Education Act 1996. This enables them to provide youth support services and careers advisers.

We also share certain information about students aged 16+ with our local authority and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996. This enables them to provide post-16 education and training providers, youth support services and career providers.

Parents/carers, or students once they're 16, can contact our Data Protection Lead to ask us to only pass name, address and date of birth to the local authority and youth support services.

Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections. We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections, under Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013.

All data is transferred securely and held by DfE under a combination of software and hardware controls, which meet the current government security policy framework.

The pupil data that we lawfully share with the DfE through data collections:

- Informs short term education policy monitoring and school accountability and intervention (for example, school GCSE results or pupil progress measures)
- Supports longer term research and monitoring of educational policy (for example, how certain subject choices go on to affect education or earnings beyond school)

To find out more about the data collection requirements placed on us by the DfE, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

The law allows the Department to share pupils' data with certain third parties, including:

- Schools
- Local authorities
- Researchers
- Organisations connected with promoting the education or wellbeing of children in England
- Other government departments and agencies
- Organisations fighting or identifying crime

For more information about the Department's NPD data sharing process, please visit <https://www.gov.uk/guidance/data-protection-how-we-collect-and-share-research-data>

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 pupils per year to the Home Office and roughly one per year to the Police. For information about which organisations the Department has provided pupil information, and for which project, or to access a monthly break down of data share volumes with Home Office and the Police, please visit <https://www.gov.uk/government/publications/dfe-external-data-shares>.

Local Authorities
