

Friday Post

Friday 21st March 2025

Our School Value: Forgiveness

Key verse: Be kind and loving to each other. Forgive each other just as God forgave you in Christ. **Ephesians 4:32**

Dear Families,

What a beautiful week we have had! And as always, it has been a very busy one.

We started the week with a visit from Chris Beardmore, who joined us for worship. She explained the history of Mothering Sunday, before giving time for the children to reflect on the wonderful women in their lives. We are looking forward to our PTA pop-up shop next Friday, don't forget to send some money into school for this.

On Wednesday we welcomed Jade, from Creative Bonanza, into school to deliver workshops on the dangers of carbon monoxide. I had the pleasure of joining Foxes and I definitely learnt a thing or two about carbon monoxide myself. Owls and Foxes came home with a goody bag including a carbon monoxide alarm which we hope you will make use of at home.

Children have been busy carrying out assessments this week. This is always a great opportunity to celebrate progress and identify areas for future learning. We look forward to welcoming parents into school for parents evening to discuss progress, do remember to sign up in the main office. We are also looking forward to welcoming Year 2 parents into school next week for their Learn With Me session, again you can sign up in the main office.

On Monday, we will be continuing to look at how all of our brains are different in our whole school worship. This week will be looking at ADHD. We have purchased some great child-friendly books to support with this, they are called 'The Abilities in Me' and would be a great resource to have at home.

Have a wonderful weekend,

Miss Phillips

Headteacher: Miss C Phillips,
St Leonard's First School & Nursery,
School Lane, Dunston, ST18 9AG
Tel: 01785 712488

E-mail: office@st-leonards-dunston.staffs.sch.uk

Thank you to everyone who submitted a design for the Perkins Eco-Awards! We have chosen to go with a puffin, which was suggested by a number of pupils - well done if this was you! In order to

create our model, we now need to collect recycled materials.

Please leave in the box in the entrance hall:

- Old school shirts and t-shirts (white) Old school trousers and dresses (black)
- Chicken wire Cardboard String Plastic bottles Egg cartons
- Newspaper Magazines Tissue paper Blue milk bottle lids

We will be building our model during Ark, and will let parents know when this is starting so they can book a session.

Thank you for your help.

Owls Requests

- Please can we have cardboard boxes all sizes but no larger than a shoe box, tubes, egg cartons etc for a modelling activity in Class Owls.
- Please could you return your permission slips for the trip to Stafford Castle.
- **Year 2** - I would like to invite one parent per Year 2 child to an English workshop at 8.55am on Thursday 27th March, this should last no longer than 30 minutes. Please let us know if you can/can't attend via the sign up sheet in the entrance hall, sorry no younger siblings.

Thank you ,Miss Laing.

Outstanding items on ParentPay

Please check your ParentPay accounts to see if any of the following are outstanding:

Nursery - Dinner money

Reception - Stafford Castle trip

Year 3 & Year 4 - Dinner money, Chasewater trip

Clubs - Gardening & Chromebook

Ark invoices

Thank you, the Office

Foxes

Please can you return your permission slips to the office for your trip to Chasewater, if you haven't already done so.

Thank you, Mrs Carrington

Use your child's home learning tasks below to support their learning outside of school. Tasks should be brought in throughout the half-term to be shared and celebrated in class.

Thank you!

Hedgehogs:

- Expressive Arts & Design** - Make a junk model castle or mythical creature such as a unicorn or dragon. Paint p/ draw pictures of mermaids, knights and princesses. Talk about myths and legends.
- History** - visit castles such as Ludlow or Tamworth and talk about their features. Draw a picture of a knight or castles and write labels for them.
- Maths** - Create a time table for a day in the life of a princess, knight or dragon. Practice counting to 10 and remembering number bonds to 5 and 10.
- English** - Visit the library and find books about castles and the local history of Stafford and the surrounding area. Continue to practise name writing, letter formation and daily reading.
- PSHE** - Encourage your child with their independence - dressing and undressing, washing hands properly and using a knife and fork correctly.

Owls:

- History** - Research and write some facts about Stafford Castle or another castle which you have visited.
- Design Technology** - use junk materials to make a model of a castle. Try to include features such as towers, turrets, keep, bailey etc.
- Science** - Can you find any signs of spring in your garden or local area? Write a list, take photos, or draw pictures to show what you find.
- Science** - In school we are learning about growing, changing and survival. Can you find out how a camel/cactus survives in the desert or how a polar bear/penguin survives in the Arctic/Antarctic?
- Maths** - Numbots. Little and often is best to support fluency in number bonds.

Foxes:

Create a water cycle experiment. Fill a large bowl with water. Put an empty pot in the middle of the water. Cover the bowl with film and place on a sunny windowsill for a few days. You should soon see the water start to evaporate, it will cool and condense on the film before falling into the empty pot as 'rain'. (take photos to email/bring in)

Tell the story of the day a volcano erupted. You could write it or record it. For example, you might want to look at a volcano we have looked at together such as Mt Vesuvius or Mt Etna etc.

Children should be accessing TT Rockstars regularly to support their fluency in their times table knowledge. Please speak to Mrs Carrington if you require the log in for this.

Investigate different states of matter. Look around your house and make a list of different solids, liquids and gases that you can find.

Make a 3D model of a volcano

Draw a map showing where volcanoes are around the world.

All children should be heard reading their school book a minimum of 4 times a week. Re-reading a book helps develop fluency and comprehension.

Books will be changed on **Tuesdays** and **Fridays**.

knowledge

In Geography this week, we have been locating where volcanoes can be found around the world and learnt about the 'Ring of Fire'. We used maps to explore each volcanoes' location and we looked at which tectonic plates border particular countries.

We have been looking at how we can change the state of objects. We learnt about what particles would look like in a solid, liquid and a gas. We explored how making chocolate melt would change the state. We knew that when the cakes began to cool, the particles would begin to move more slowly and this would create more bonds to each other.

What came first the colour orange or the fruit orange? - Belle Y3

Teddy P "Fruit has been around longer"

Orla "I think the fruit came first and the colour is named after the fruit"

Thomas "I think the colour because it's the colour of magma and that comes out of volcanoes and they were here first"

Tovah "They came at the same time"

Rohan "The fruit came first as colours weren't around then"

Olivia R "Fruit came first ,it was around in the olden days"

Elsie G ""I think orange colour, because we have orange paint"

Belle "I think the fruit and the colour was named after the fruit"

Xander "the colour came first"

Pippa " The fruit came when God created the world, the colour came with the rainbow after Noah's Ark"

Miss Phillips will be asking the children's thoughts on the following question during Worship on Friday.

BIG QUESTION

What is art? What makes something a work of art?

Vacancy

Miss Parker will be retiring at Easter after over 25 years of being at St Leonard's. We are now advertising for the role of a lunchtime supervisor if you are, or know of anyone, who is interested please speak to the office.

After School Clubs

After Easter we will be offering the following clubs until the end of the academic year:

Monday - Gardening

Wednesday - Choir

Thursday - Multisports

Friday - Rounders

FOREST SCHOOL

OWLS

We have continued to find out about castles this week. The children have learnt new vocabulary such as turret and battlement and have been using the ideas and vocabulary in their imaginary play. In maths, Reception have been learning the names of 3D shapes and noticing these shapes in the environment. We also found out what 2D shapes are found within the shapes. To help us build positive relationships we have been finding out about what conflicts we can have with each other and use a solution wheel to find a way to resolve our problems with each other

Greta Thunberg

Greta Thunberg was born on 3rd January 2003 in Stockholm, Sweden. As a child, she was diagnosed with Autism Spectrum Condition (ASC), which affects how people perceive the world and interact with others. Some autistic people develop a special interest in a specific topic; in Thunberg's case, she became particularly interested in climate change when she first learnt about it at the age of 8. As a result, she changed her habits to help reduce her carbon footprint, including becoming vegan and refusing to travel by aeroplane.

In 2018, Thunberg staged a protest outside the Swedish parliament building, demanding that politicians make changes to address the climate crisis. This led to an international movement called School Strike for Climate, which encouraged young people to skip school and participate in demonstrations demanding action from political leaders. Thunberg also spoke at the United Nations Climate Change Conference in 2018. She has been commended for her ability to speak with clarity on the subject of climate change, something that some people attribute to her ASC. She has been listed as one of Time's 100 most influential people and has been nominated for a Nobel Peace Prize.

"Being different is a gift. It makes me see things from outside the box. I don't easily fall for lies, I can see through things."

[Greta Thunberg: 16-Year-Old Climate Activist Inspired International Youth Movement \(BBC Newsround\)](#)

Next week we are learning

'He calls me friend'

No nuts please

Please note due to children in school with allergies please do not send any products containing nuts into school for break or lunch times. Thank you for your co-operation.

**WONDERFUL
WOMAN
POP UP SHOP**

**MOTHERS, GRANDMOTHERS,
AUNTIES & SPECIAL WOMEN**

On March 28th there will be
an opportunity for the
children to buy gifts and
cards for the wonderful
women in their lives.

All items will be wrapped or in
gift bags.
The items will be priced from
50p-£7
Change will be given.

Easter bonnet competition

We are holding a decorate your own Easter bonnet competition on Thursday 11th April for the children. We would like the children to be as creative as they can and bring in their decorated hats, crowns etc into school on the morning of the 11th. There will be one prize per class! Later on in the morning children will also be taking part in an Easter egg hunt.

Please can we ask for a suggested donation of £2.50 per child, money should be placed in an envelope and put in the PTFA post box in the entrance hall.

Thank you & Good luck!

What Parents & Educators Need to Know about

ROBLOX

AGE RESTRICTION
PEGI
7

Roblox is one of the most popular video games among children. In 2020, the game's developers claimed that more than half of the USA's children had played it. As a 'sandbox' title, the game lets players create their own gaming experiences with Roblox Studio to build custom levels, which can then be shared online.

WHAT ARE THE RISKS?

ONLINE PLAY RISKS

Because Roblox connects random players across the world, it can put younger players into an environment with anonymous users who could use the platform for nefarious reasons. For example, some role-play games are used for online dates and mature role play, which could expose youngsters to inappropriate messages in the public chat box.

MATURE CONTENT

Content is difficult to moderate throughout Roblox, due to the number of games available. This is particularly notable on smaller games and experiences, but in summary, some of the games and experiences offered on the platform contain age-inappropriate content that could easily be seen by young players.

IN-GAME SPENDING

The majority of games within Roblox have extensive monetisation options, usually through season passes or microtransactions. Purchases can range in value from a few pennies up to much larger sums of money. While some games offer a lot of content via purchases, others can offer very little for real world money, causing younger players to end up out of pocket.

ANONYMOUS PLAYERS

The anonymity of users can leave players vulnerable to bullying, harassment, and predatory behaviour. Without the right parental controls or monitoring, users can connect with each other via personal messages or friend requests, and it is very difficult to know who's behind a username in this vast online world.

RISK OF ADDICTION

Roblox games can feature rewarding or satisfying mechanics that keep players coming back - or persuade them to stay logged-in for much longer. Like most games, they focus on interactivity, with constant rewards via in-game unlocks and currencies, which can sometimes lead to an addictive need to remain online for long periods of time.

SCAMS

Many of the games on Roblox feature collectible items, pets, or characters. These objects, while digital, are worth a lot of real money on certain online markets. Scammers will attempt to trade with younger users in the hopes of getting rare items that can be sold for real money, manipulating the child into handing them over, usually via misleading information.

Advice for Parents & Educators

MONITOR THE CONTENT

While Roblox does implement plenty of moderation tools and parental controls, it's up to parents and guardians to monitor the types of games a child or impressionable player is experiencing. If a youngster wants to play online, be sure to check out which specific games they want to play within it, and get a good idea of their content.

TAKE ADVANTAGE OF TOOLS

Use the parental controls within the game itself and teach youngsters how to report and block other players. Knowing the powers within their reach will make Roblox a safer, happier experience. You can set age ranges for who's allowed to contact you, close public chat boxes, block spending, and even make your Roblox profile completely private. All these options are helpful in cutting off bad actors from engaging with children.

PLAY TOGETHER

Consider playing Roblox with the children in your care. There are few more effective ways to see how monetisation works, gauge whether the game could lead to addictive behaviour, or even witness how interaction between players works, than sitting down and trying the game for yourself. This should help you figure out whether it's suitable for particular children.

TEACH ONLINE BEHAVIOURS

Have an open conversation about the risks of online play and how to spend money wisely. By being honest and giving tips on how a younger user can protect themselves, you can empower them to not only take care of themselves, but others too. Any user can be reported to Roblox moderators by other players for behaving inappropriately. With this knowledge, younger players can be aware of what to look for and help prevent it.

Meet Our Expert

Don Lipscombe is a videogame journalist and author of over 20 books on gaming, including books on Minecraft, Fortnite, Roblox, and more. For 15 years he has been writing about his passion for gaming. When he's not playing games, he's talking about them at GAMINGable.
